Technical Skills

- Programming Languages: JavaScript
- Web Development: Node.js, React, HTML, CSS, TypeScript
- Database Management: PostgreSQL, MongoDB
- ORM: Prisma
- Version Control: Git
- Software Development Tools: Visual Studio Code

Soft Skills

- Team Collaboration
- Effective Communication
- Adaptability
- Problem-Solving | Self-Learning
- Remote Work Collaboration
- Attention to Detail

Education Background

Full Stack Web Development (Full Time)

Masai School Bengaluru.

Sep 2022 - July 2023 (online)

B.E Mechanical Engineering

Sant Gadge Baba Amravati University
Amaravati.

Aug 2019 - June 2022

Achievements

- **HackerRank:**
 - Problem Solving 3 stars
 - SQL 3 stars
- Published a research paper entitled "Power Booster Motorized Supercharger" in International Journal
📄 [Certificate](#)

Professional Summary

Self-motivated, hard-working, and ambitious Web developer with over 1 year of experience in Node.js. Proficient in JavaScript, TypeScript, HTML, CSS, and PostgreSQL. Known for problem-solving skills and the ability to collaborate effectively. Dedicated to delivering high-quality code within project timelines and eager to contribute my skills to a dynamic development team.

Work Experience

Junior Software Engineer

[Byte Sigma Technologies](#) | December 2022 - December 2023

- Developed and implemented a high-performance RESTful API using Node.js, TypeScript, PostgreSQL, and Prisma, resulting in a reduction in response time & better overall user experience.
- Managed optimized database operations and schema design using PostgreSQL, resulting in efficient data management and increased performance.
- Worked closely with front-end developers, ensuring smooth integration with the user interface.
- Partnered with the QA team to identify and troubleshoot software defects.
- Conducted thorough code reviews to maintain high standards of coding quality and performance.

Software Engineer Intern

[Byte Sigma Technologies](#) | October 2022 - December 2022

- Applied Prisma ORM, Node.js, and JavaScript expertise to project's backend.
- Played a pivotal role in backend development, making significant contributions that contributed to the project's success.
- Demonstrated versatility by applying knowledge in real-world scenarios.

Projects

Briefly-URL-Shortner 🔄

This project is a URL shortener service where users can input a long URL and receive a shorter one in return. It will also generate QR codes for URLs and UPI.

Tech-Stack : NodeJS | Express | MongoDB | VanillaJS

Key Responsibilities:

- Led the team
- Designed and developed the admin side and UI of the Dashboard
- Leveraged VanillaJS to create a visually stunning and user-friendly interface
- Effectively managed and supervised the team to meet project objectives.

A Collaborative project built by a team of 4 member executed in 5 days.

Doctor Appointment Booking System 🔄

This Project provides a user-friendly platform that enables users to browse, book, and cancel doctor appointment with ease.

Tech-Stack : React.JS | Node.JS | SQL | MongoDB | AWS

Key Responsibilities:

- Successfully designed and implemented the Dashboard's UI and admin side.
 - Developed a visually-pleasing, user-friendly UI using React.JS.
- A Collaborative project built by a team of 5 member executed in 5 days.
